

Eureka License Server Installation and Configuration

Software Requirements

- 1. Windows 7 or later with Microsoft.NET Framework 4.5.
- 2. Network connection.
- 3. The computer that the Eureka License Server is installed on must be able to reach: <u>http://support2.roboris.com</u>.
 - a. The Eureka License Server authenticates with the above address every 30 days.
 - b. If the Eureka License Server cannot reach the Eureka Server, the Eureka License Server will lock. If this occurs, contact Eureka at *licensing@roboris.com*

If Behind a Firewall

1. You will need to configure the firewall to accept incoming and outcoming connections with the Eureka License Server's port.

Installing the Eureka License Server

1. Open

setup_eureka_license_server_x86_3.0.31.0.exe

2. Allow app to make changes to your device

3. To select language, click the drop-down arrow and select a language

Select Se	etup Language	\times
1 2	Select the language to use during the installation.	
	English	~
	OK Cancel	

4. Click install.

5. If prompted, select automatically close the applications and select next

6. Click finish.

Configuring the Eureka License Server

1. Open the Eureka License Server application.

2. Click stop.
