This document has detailed instructions on how to download, license, and install SOLIDWORKS Visualize Boost.

Before loading any software, you should always login with full administrative permissions and disable your anti-virus and anti-spyware programs.

This is not a troubleshooting guide. If you have any technical issues with SOLIDWORKS Visualize, please visit our <u>Help Center</u> or contact <u>Hawk Ridge Systems Technical Support</u>.

This document is only to be distributed and used by Hawk Ridge Systems customers. Any other use is prohibited.

Before Installation

It is highly recommended to take a moment before installing Visualize Boost to check that you are ready to load your new software. Follow these steps before installing SOLIDWORKS Visualize:

1. Ensure eligibility for Visualize Boost. A license of Visualize Boost is bundled with Visualize Professional packages. Visualize Boost can also be purchased as a separate product, although Visualize Professional is also required to take advantage of Visualize Boost.

2. Login to your computer with full administrative rights.

3. Turn down the User Account Control setting (found in the Control Panel). To do this, navigate to your Control Panel > User Accounts > Change User Account Control settings. The window that follows will have a slider that controls how restrictive the User Account Control currently is. Make sure the setting is set to "Never Notify" before installing Visualize. Any changes made to the User Account Control requires a machine restart for the changes to take effect. If desired, this setting can be changed after installing Visualize.

4. Disable all anti-virus and anti-spyware tools.

Visualize Boost Licensing

A license of Visualize Boost is included with each Visualize Professional 2023 license. An additional serial number is required to activate the complimentary seat of Visualize Boost 2023. This new additional serial number can be found by contacting our support team at support@hawkridgesys.com, or 877-266-4469 (US) or 866-587-6803 (Canada). A Visualize Professional serial number cannot be entered when attempting to install a complimentary seat of Visualize Boost.

With the 2023 release, Visualize Boost is now installed via the SOLIDWORKS Installation Manager. If you have a SOLIDWORKS 2023 DVD kit, proceed to the next section for instructions on how to install. If you are looking to download or update Visualize 2023, please see our 2023 Downloads and Updates document for more details on how to obtain an Installation Manager for SOLIDWORKS.

Basic Installation

- 1. Insert your SOLIDWORKS DVD or launch a 2023 SOLIDWORKS Installation Manager that can be obtained via the <u>SOLIDWORKS downloads page</u>.
- 2. The first page of the Installation Manager will welcome you to SOLIDWORKS and ask which type of installation you would like to perform. For a standalone install, pick the option **Individual (on this computer)**. Press the **Next** button to continue.
- 3. The next page will ask for the serial numbers of your products. Input your Visualize Boost serial number into the **SOLIDWORKS Visualize Boost** field, found in the **Visualization** section. Input any other product serial numbers into their appropriate fields.

9. You will be shown the estimated install size for your products at the bottom of the **Summary** section. An estimated download size for additional install files may also be shown.

10. Click the **Install Now** button to continue. If there are any files that need downloading, this button will appear as **Download and Install**.

- 11. Any required download will start automatically.
- 12. If any install files were downloaded, the Visualize Boost install will start automatically. Any other products that were selected during the previous **Summary** section will also install automatically.
- 13. Once the install has been completed, press the **Finish** button to exit the Installation Manager.

Activating and Deactivating Visualize Boost

In order to activate Visualize Boost, you will want to first launch the tool via one of the following methods:

- 1. Start Visualize Boost via your Start Menu > SOLIDWORKS 2023 > SOLIDWORKS Visualize Boost.
- 2. From the desktop, double click on your Visualize Boost shortcut.
- 3. Launch Chrome, Firefox, or Internet Explorer, and navigate to: http://localhost:9031/config.html

After launching Visualize Boost, input your e-mail address into the field shown and click **Enable License**.
